DONGWAN KIM (dongwankim.com)

SUMMARY

Self taught Full stack Developer. I started learning web development to make my own "feed search" application that was needed to run a pet food store. The joy that I felt every time the application was completed little by little, made me have a strong desire to become a developer.

PROJECT

GSTRADE

A web application that assists game users to buy, sell and list items in real-time

- Designed ERD and used git and github for version control
- Developed front-end with HTML5, CSS, Bootstrap, jQuery and JavaScript
- Created back-end with Ruby on Rails by implementing RESTful routes, MVC pattern, CRUD and WebSockets
- Features: user authentication, live search, pagination and infinite scrolling

Ecommerce

A react front-end where users can look at products and add to cart

- Fetches placeholder data from FakestoreApi.com using async/await
- Used react-redux for state management for cart items
- Make ajax calls to get additional data to display more items
- Used react-router-dom for routing

EXPERIENCE

Kensington Pet Food Plus, Burnaby — *Owner*

November 2015 - February 2020

- Operated as an owner of the store and managed a team of a few employees
- Developed a web application to aid pet owners to find specific ingredients for various pet foods

K.I. Tech, Changwon — *HR Assistant Manager*

April 2013 - August 2015

- Responsible for resume screening, talent acquisition and organizing and performing interviews from entry level to intermediate positions
- Delegated work to other team members to maintain efficiency and accuracy
- Created and organized talent acquisition reports to present to manager

MBCEvery1, Seoul — *Assistant Program Director*

September 2011 - February 2013

- Worked as an assistant director and director for a variety show called 'Bokbulbok Show Season 2'
- Collaborated with coworkers in a fast-paced environment requiring daily meetings, brainstorming and presenting creative ideas; and effectively communicated with other departments to ensure successful for the preparation and the recording of weekly shows
- Managed end-to-end post production involving rough cuts, team discussions, captions, visual and sound effects, and receiving approval from the chief producer

EDUCATION

Vancouver Film School, Vancouver — *Diploma*

April 2009 - April 2011,

Film production
